TIMELESS ELEGANCE MEETS MODERN DESIGN

Gymkhana's Portofino collection is a symphony of elegant design and timeless appeal. Crafted with meticulous attention to detail, the collection features a perfect integration of off-set shapes and modular units, offering a versatile and customizable solution for your outdoor space. From inviting sofa sets to adaptable modular units, Portofino allows you to create a unique and personalized sanctuary.

The collection's true allure lies in its innovative use of Italian fabrics. The Boucle finish, a current design sensation, adds a touch of texture and sophistication to the pieces. Available in Taupe and Stone hues, these fabrics evoke the serene beauty of Portofino's pebble beaches, harmonizing seamlessly with the collection's modern aesthetic. The Portofino collection invites you to experience the epitome of outdoor living, where comfort, style, and versatility converge.

YOUR PERSONAL OASIS: **THE MAJLIS COLLECTION**

Inspired by the traditional Arab Majlis, the Majlis Collection by GYMKHANA brings the essence of Arabian hospitality to the outdoors. Traditionally a welcoming space where friends and family gather to socialise and relax, the Majlis—meaning "sitting room," —has been reimagined in this outdoor living collection to bring comfort, style and heritage into contemporary outdoor living spaces.

The Majlis range offers 1-, 2- and 3-seater armchairs and modular seating solutions, designed for versatility within a variety of spaces. Think patios, verandas, pergolas and balconies. The collection features two distinct backrest and armrest styles: one with a sleek aluminium structure with ornate rope detailing, and the other fully upholstered in a crisp-soft fabric. The low-profile design is complemented by a selection of scatter cushions that serve as both back and armrests to ensure ultimate comfort while fully relaxing al fresco.

Capturing the warmth and vibrancy of traditional settings to bring a touch of the Middle East to your space, the range features a palette of neutral and pastel hues in four distinct colorways—beige stripes, blue stripes, plain beige, and aquamarine & pink stripes. Cabana stripes, Herringbone-style stripes and geometric designs can be mixed and matched to make a one-of-a-kind seating plan.

The Majlis collection gifts any outdoor setting the perfect concoction of comfort and style to welcome guests. To enhance the home comforts outside, incorporate GYMKHANA rugs to layer up the patterns and textures.

PENTHOUSE COLLECTION

The Penthouse collection by GYMKHANA turns any outdoor space into a cosmopolitan retreat you can escape to and enjoy, any time of day. Sleek, strong lines form the foundation of a less-is-more design language that pairs well with softer, more natural shapes and foliage for a pleasing contrast. Crafted for those seeking relaxation and entertainment in a sophisticated setting, Penthouse is oh-so-chic and reassuringly comfortable.

Designed for ultimate lounging in style, the collection comprises of modular sofas with high-depth cushions, generously wide single and double sunbeds and coffee tables to place the essentials, ensuring every moment of restoration is a luxurious one. In a calming colour palette of neutral beige and grey tones, the furniture is crafted from weather-resistant materials, durable outdoor fabrics, and quick-dry foam—promising enduring quality, no matter the elements. A tactile mix of materials adds appeal, with teak frames imparting a touch of the organic.

Choose your modular seating plan and mix and match back and seat cushions for a tonal look that is uniquely your own. For the pool area, reclining sunbeds are perfect for sunning during the day or for stargazing at night.

Whether you are enjoying sunset views of the skyline or unwinding by the ocean on the salty, sea-swept patio, the Penthouse collection offers a seating plan that advocates for a relaxed and mindful approach to enjoying the great outdoors.

For a unique al fresco dining experience, our bespoke service enables you to curate your outdoor space to suit your individual style. For an ultra-stylish dining, coffee and side table, simply choose from a range of durable porcelain slab tops in different colour tones, textures and sizes, then opt for a matching frame in a teak, white or black aluminium finish: team timeless terrazzo to teak for an on-trend biophilic feel, white marble works with white aluminium for a sleek, monochrome look or, for an urban industrial edge, style grey concrete with black aluminium.

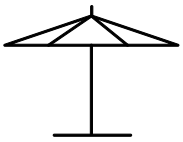
Create pleasant shaded areas for relaxing in the great outdoors with our umbrellas. Choose from a side or central pole and square, rectangle or octagonal shape with a suitable base - for customised canopy. Our easy-open, heavy-duty options offer sizes of up to 4m x 4m which are available in several colour options for ease of customisation.

TYPES OF UMBRELLA

- Centre Pole

The most popular type of umbrella has a straight pole that is positioned in the centre of the umbrella and usually sits in a base on the ground or through a table designed with an umbrella hole. Some of our beach umbrellas have a spike on the pole to be used in sand without a bas.e



- Cantilever

This umbrella features the pole off to one side rather than down the centre. Some side pole umbrellas have a shade that will pivot from side to side and may even rotate 360°.

POLE MATERIAL

- Wood

Wood umbrellas have that classic umbrella appeal. They pair well with wooden furniture and are available in a range of sizes.

- Aluminium

A very durable and versatile pole option, as aluminium is rust resistant and very strong.

- Stainless Steel

The strongest and most exotic option. Stainless steel has strength and durability as well as a high shine finish.

- Struts

Struts are the main supports for the umbrella canopy and can be either aluminium or wood. Both options function in the same way and offer similar durability (wood may need some treatment as part of the care and maintenance program), it is a personal choice to match the style of furniture.

CARE & MAINTENANCE

- Do not force your umbrella open. It should open gently, if it does not it may be caught on something. Forcing it could damage the frame and/or the lifting mechanism.
- The umbrella must be closed when not in use, this will reduce the chance of damaging the frame in adverse conditions.
- Occasional/periodic rinsing with fresh water will keep your umbrella in good condition.

TENDERFUEL: A UNIQUE, SAFER, AND CLEANER FUEL

Tenderfuel is a specially developed fuel designed exclusively for use in Tenderflame products. This high-quality fuel produces a beautiful, soot-free flame that burns cleanly and is safe for indoor use. Thanks to its unique composition, Tenderfuel is more environmentally friendly than conventional fuels, with minimal emissions of harmful substances such as CO_2.

Why Tenderfuel is DifferentConventional fuels can be highly flammable, release smoke or odor when burned, and increase the risk of fire accidents if spilled or mishandled. Tenderfuel, however, is engineered to be non-flammable on its own and will only ignite when used with the special Tenderflame wick. This ensures a cleaner, safer, and more controlled flame.

Additionally, all Tenderflame products are designed to work exclusively with Tenderfuel, guaranteeing optimal performance and maximum safety. Using other fuels may not only compromise the experience but can also create dangerous situations and damage the product.

CARE & MAINTENANCE

LEARN HOW TO EXTEND THE LIFE OF YOUR FURNITURE

TEAK WOOD

Teak is a highly durable hardwood prized for its natural oil content, making it ideal for outdoor use. Over time, teak develops a silvery-gray patina. To preserve its original golden hue, regular application of teak sealant and water-based non-oil teak protector are recommended. As a natural material, teak may exhibit slight variations such as small cracks or warping.

Long-lasting Protection
Regular sealing helps maintain the wood's natural color and protects against weathering.

Cleaning & Care
Consistent cleaning helps remove dirt and prevent buildup.

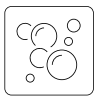
Avoid Harsh Chemicals
Using harsh substances can damage the wood's finish.

Additional Protection
Covering furniture when not in use can help extend its life.

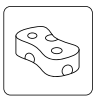
Maintenance
How often the treatment is needed depends on the climate and whether the furniture is placed at a sheltered position. As a general rule, teak surfaces should be cleaned and treated at least once a year.

Apply teak sealant to help maintain the natural colour.

After the teak sealant is applied, a water based non-oil teak protector will maintain the golden colour.

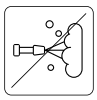


Clean regularly with mild soap and water. We also recommend using any of our dedicated teak cleaners.



Use a lukewarm cloth or soft sponge.

Avoid harsh chemicals and abrasive materials.



Avoid using a power washer as this may erode the soft surface and leave it rough to the touch.
