Create pleasant shaded areas for relaxing in the great outdoors with our umbrellas. Choose from a side or central pole and square, rectangle or octagonal shape with a suitable base for customised canopy. Our easy-open, heavy-duty options offer sizes of up to 4m x 4m which are available in several colour options for ease of customisation.

TYPES OF UMBRELLAS:

Centre Pole: The most popular type of umbrella has a straight pole that is positioned in the centre of the umbrella and usually sits in a base on the ground or through a table designed with an umbrella hole. Some of our beach umbrellas have a spike on the pole to be used in sand without a base.

Cantilever: This umbrella features the pole off to one side rather than down the centre. Some side pole umbrellas have a shade that will pivot from side to side and may even rotate 360°.

UMBRELLA SHAPES & SIZING:

SHAPE	SIZE	DINING	SEATING
	2 m	 Up to 4 Seater Dining	 L-Shaped Sofa
	3 m	 Up to 6 Seater Dining	 Up to 6 Sofa
	3 m	 Up to 6 Seater Dining	 Up to 2 Sunbeds
	4 - 3.5 m	 Up to 8 Seater Dining	 Up to 2 Sunbeds
	4 m	 Up to 8 Seater Dining	 Up to 6 Sofa

POLE MATERIALS:

Wood: Wood umbrellas have that classic umbrella appeal. They pair well with wooden furniture and are available in a range of sizes.

Aluminium: A very durable and versatile pole option, as aluminium is rust resistant and very strong.

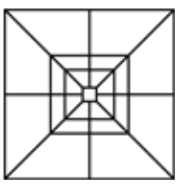

Stainless Steel: The strongest and most exotic option. Stainless steel has strength and durability as well as a high shine finish.

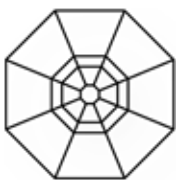

Struts: Struts are the main supports for the umbrella canopy and can be either aluminium or wood. Both options function in the same way and offer similar durability (wood may need some treatment as part of the care and maintenance programme); it is a personal choice to match the style of furniture.

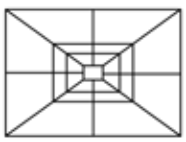

CARE & MAINTENANCE:

- Do not force your umbrella open. It should open gently. If it does not, it may be caught on something. Forcing it could damage the frame and/or the lifting mechanism.
- The umbrella must be closed when not in use. This will reduce the chance of damaging the frame in adverse conditions.
- Occasional/periodic rinsing with fresh water will keep your umbrella in good condition.

CARE & MAINTENANCE

TEAK WOOD

Thanks to its dense grain and natural oils, teak is built to endure harsh weather conditions, from rain and snow to scorching sun. It's also resistant to rot, decay, and insects that typically damage wood. Over time, teak develops a beautiful silverygrey patina, but with regular care and maintenance, its original golden hue can be preserved for years to come.

EASY TEAK CARE TIPS:

Dust & Wipe: Keep your teak furniture clean by dusting regularly and wiping down with a soft, damp cloth.

Remove Stains: Wash away dirt and stains with mild soap or a specialized teak cleaner.

Avoid Harsh Chemicals: Steer clear of solvents, acids, or silicon-based products – they can harm your teak's finish. Furniture is placed at a sheltered position. As a general rule, teak surfaces should be cleaned and treated at least once a year.

Cover Up: When not in use, protect your furniture with a cover to shield it from the elements.

Protect & Preserve: Apply a teak protector and sealer yearly to keep the wood's rich colour intact.

WHAT ABOUT STUBBORN OIL STAINS?

Immediately Blot the Area: Gently blot or press the stained area with a clean, dry cloth to absorb as much oil as possible. Avoid rubbing, as this can spread the stain further.

Apply Teak Cleaner, Rinse & Dry: Following the same steps as standard teak care.

Lightly Sand Persistent Stains: Before applying teak protector, use a fine-grade sandpaper (220-grit or higher) to gently sand the stained area, always sanding in the direction of the wood grain.

6 STEPS TO REJUVENATE YOUR TEAK:

Clean the Surface: Start by gently removing dust with a soft cloth to prepare the surface for treatment.

Dampen the Wood: Lightly moisten the teak with water and a sponge, ensuring the surface is damp but not soaking wet.

Apply Teak Cleanser: Use a soft cloth or sponge to apply teak cleaner or mild dish soap. Let it sit for 3 minutes to lift stains and dirt.

Rinse Thoroughly: Rinse the furniture well with water, then allow it to dry completely.

Apply Teak Protector: Once dry and dust-free, apply a thin layer of teak protector using a soft cloth to preserve and enhance the wood's natural beauty.

Let it dry: Let the teak dry for at least 48 hours before exposing it to moisture or rain, ensuring the protector is fully absorbed.

Pro Tip: For extra protection, apply a teak sealant before exposing your furniture to the outdoors.
