KOY
ORGANIC

Koy Organic by BAGNODESIGN introduces three ARMOUR coating finishes to the established Koy mixer range. Cocoa, Truffle and Sage bring warm, earthy tones and a softer aesthetic to its distinctive contemporary design. The familiar profiles retain their clean lines, now expressed in colours that offer a natural complement to timber, stone and the textured surfaces of a contemporary bathroom.

The range includes standard and tall basin mixers, a bidet mixer and a deck-mounted bath mixer, alongside concealed shower controls. Complementary showering products and accessories carry the palette through to hand showers, towel rails and robe hooks. This choice of fittings allows the bathroom to be planned around one finish, with mixer formats to suit the requirements of each area.

K

NATURE

Earth, bark and foliage provide the starting point for the three finishes. Cocoa draws on rich soil and the warmth of tree bark. Sage reflects leaves, greenery and soft botanical tones, while Truffle takes its cues from stone, woodland textures and deep neutrals. Each has its own place in the palette, offering a choice of natural colour that can inform the materials and surfaces used throughout the bathroom. Natural wood and textured stone offer a starting point for pairing these finishes with the rest of the room. Green, brown and terracotta tiles extend the earthy palette across larger surfaces, while natural fibres introduce softer textures. Pair the chosen mixer finish with the grain of timber or the markings in stone, allowing the variations in these materials to add depth and interest around the fittings.
